(YEARS 5, 6, 7)

INSTRUCTIONS “In the Running for the Olympics”

- Use the answers to the clues to complete the crossword on the last page of the book.
- It has been found that this activity occupies a student for approximately one week including class time and homework.

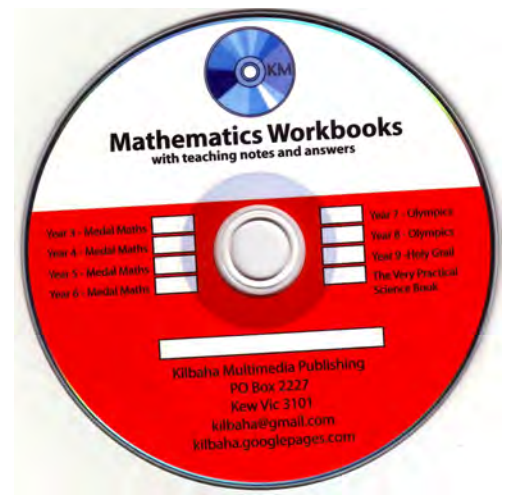

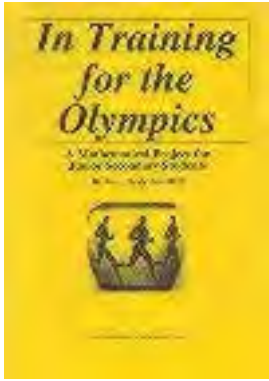

Five good reasons to use this project with your students.

- Bring mathematics to life with this project
- Introduce new topics and revise work
- Provide extra work for mathematically gifted students
- Give a sense of achievement to students who find mathematics difficult
- Classroom trials show that students love doing this project

Mathematics topics covered in the project “In the Running for the Olympics”

- digital time
- movement on a grid
- addition, subtraction, multiplication, division
- prime numbers
- Roman Numerals
- number sequences
- number and money word problems
- time (days, weeks, months, years, decades)
- puzzles using a grid
- triangular numbers
- square numbers
- decimals (addition, subtraction, multiplication)
- millilitres, litres
- grams, kilograms, tonnes
- perimeter
- nets of solids
- cylinder
- triangular prism
- cube
- square pyramid
- cone
- triangular pyramid
- logic puzzles
- cryptograms
- magic squares

(YEAR 7 OR YEAR 8)

INSTRUCTIONS “In Training for the Olympics”

- Use the answers to the clues to complete the crossword on the last page of the book.
- It has been found that this activity occupies a student for approximately one week including class time and homework.

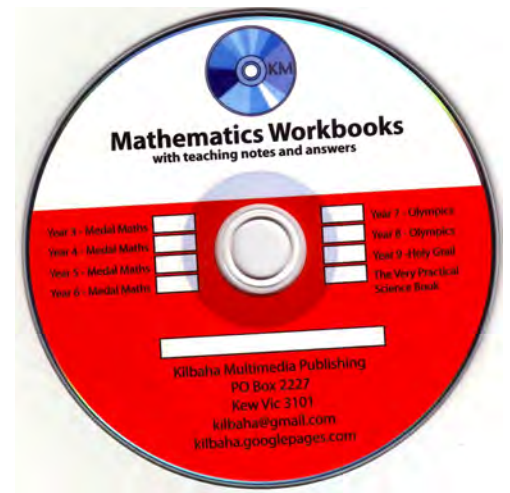

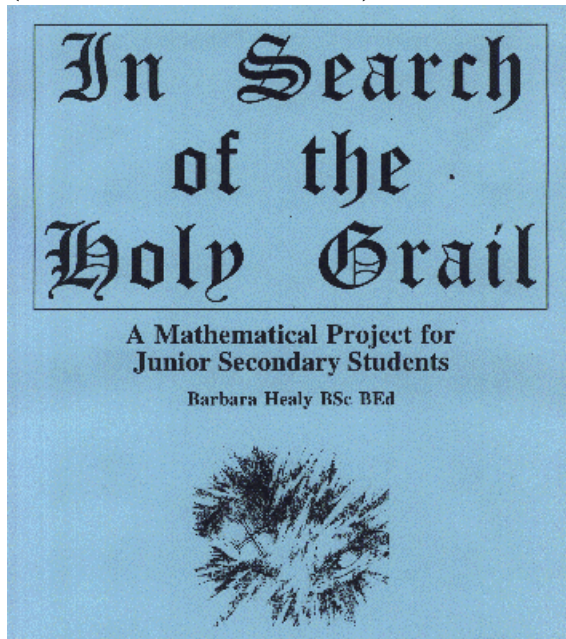

Five good reasons to use this project with your students.

- Bring mathematics to life with this project
- Introduce new topics and revise work
- Provide extra work for mathematically gifted students
- Give a sense of achievement to students who find mathematics difficult
- Classroom trials show that students love doing this project

Mathematics topics covered in the project “In Training for the Olympics”

- fractions - addition, subtraction, multiplication, division
- measurement - centimetres, metres
- perimeters and areas of triangles and rectangles
- angles - acute, obtuse, right
- angles in a straight line = 180°
- sum of the angles in a triangle = 180°
- plotting positive values on the X and Y axes
- like terms
- substitution
- addition and subtraction of pronumerals
- cube
- square numbers
- square pyramid
- isosceles triangle
- triangular prism
- hexagon
- cuboid
- percentage
- column graphs
- number puzzles
- logic puzzles
- cryptograms
- magic squares

(YEAR 8 OR YEAR 9)

INSTRUCTIONS “In Search of the Holy Grail”

- Use the answers to the clues to complete the picture on the last page of the book.
- It has been found that this activity occupies a student for approximately one week including class time and homework.

Five good reasons to use this project with your students.

- Bring mathematics to life with this project
- Introduce new topics and revise work
- Provide extra work for mathematically gifted students
- Give a sense of achievement to students who find mathematics difficult
- Classroom trials show that students love doing this project

Knowledge needed to find the Holy Grail

- negative numbers
- plotting co-ordinates
- graphing straight lines from given points
- gradient and Y intercept given the equation of the straight line
- circumference of a circle
- areas of circle, square, parallelogram, triangle, trapezium, hexagon
- volume of a cuboid
- algebraic substitution solving algebraic equations
- angles in a straight line
- complementary angles
- vertically opposite angles
- alternate angles
- co-interior angles
- corresponding angles

Please mark (X) the English Resource items required. Unlimited school site licence for each English Resource.

English Resources supplied on CD-ROM. New CDs for the new English course. Unlimited school site licence	Price
<p>FLYING WITH TEXT RESPONSES Detailed sample responses to typical English Examination questions. Texts included (among others) are: A Man for All Seasons, Brilliant Lies, Elli, Empire of the Sun, Going Home, In Country, Lives of Girls and Women, Local Heroes, Montana 1948, Paper Nautilus, Proof, Remembering Babylon, Richard II, Schindler's List, Selected Poems, The Death of Napoleon, The Great Gatsby, The Kitchen God's Wife, The Life of Galileo, The Lost Salt Gift of Blood</p>	\$49.95
<p>FLYING WITH LANGUAGE ANALYSIS Detailed sample responses to these typical English Examination questions: "No self-respecting Aussie would say 'good-day'. That sounds as un-Australian as saying 'how do you do'. The greeting is 'g'day'; it's a national badge that unites us all, and if you're an Australian you say it not only to show you are a member of that wonderful group, you say it because it's how you speak. It will always show that you are party of the group, whether you were conscious of announcing it or not." (Dr Magda Tablisky: My Strine). 'Individuals use language to be identified as a member of various groups, adapting their use of language to fit into the group'. With reference to at least two subsystems of language, explain how language use reflects a group identity.</p>	\$49.95
<p>FLYING WITH WRITING IN CONTEXT Detailed sample responses to English Examination questions for the following contexts: Writing in Context - The Imaginative Landscape Fly Away Peter - David Malouf, Island - Alistair MacLeod, Poetry of Robert Frost Writing in Context - Whose Reality? A Streetcar Named Desire - T. Williams, Eternal Sunshine of the Spotless Mind - Michel Gondry Writing in Context - Encountering Conflict The Crucible - Arthur Miller, Omagh - Peter Travers Writing in Context - Identity and Belonging Bombshells - Joanna Murray-Smith, Witness - Peter Weir Additional Sample Answers to the following English Texts: Don't Start Me Talking: Lyrics 1984-2004, Look Both Ways, Hard Times, Of Love and Shadows, In the Lake of the Woods, Romulus My Father</p>	\$49.95
<p>FLYING WITH ENGLISH AS A SECOND LANGUAGE (ESL) Detailed sample responses are supplied to ESL questions such as: GRAFFITI: 'Art' OR 'Vandalism'? What do you think? (large number of topics covered)</p>	\$49.95

• **10 exciting free Chemistry demonstrations with audio**

- Get your students excited about Chemistry
- Bring your Science lessons to life
- Avoid using dangerous chemicals in the classroom
- Can be used with primary school students
- Can be used with secondary school students
- Show science demonstrations safely.
- Conserve expensive chemicals.
- Save your lab-tech some time-consuming preparation.
- Replay the experiment as often as required.
- Ten chemistry lessons for each of years 6,7,8,9,10,11,12
- Great value at only \$10 each
