Answers to FAQ

What is NAPLAN Online?

Australian Federal, state and territory education ministers have agreed that NAPLAN will move online over a two-to-three year period. This means moving NAPLAN from the current paper-based tests to computer-based assessments.

The transition to NAPLAN online has begun.

NAPLAN Online will provide better assessment, more precise results and faster turnaround of information. The assessments can run through a real-time internet connection or onscreen without an internet connection.

NAPLAN Online features 'tailored testing' which gives students questions that are more suited to their ability – resulting in better assessment and more precise results.

More information here <http://www.nap.edu.au/online-assessment>

This transition to NAPLAN Online is the reason why the 2020 Kilbaha NAPLAN Trial Tests are available **only** for use on a computer. Automatic marking of the 2020 Kilbaha NAPLAN Trial Tests will ensure that teachers get fast feedback about the strengths and weaknesses of their students in Literacy and Numeracy.
